Technician or Survey Technologist and Site Supervisor, Heritage Team

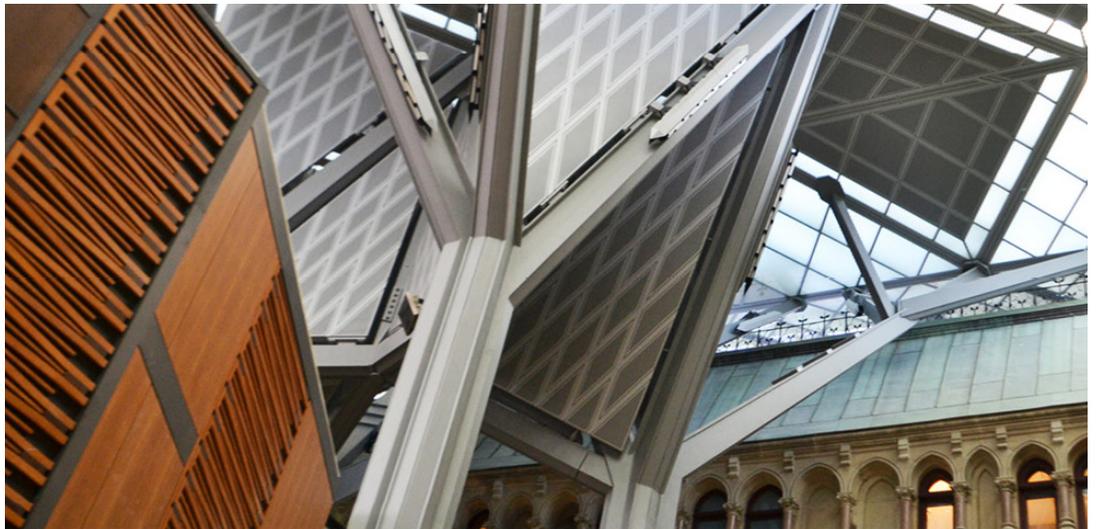

EVOQ is an award-winning architecture firm recognized for quality interventions and site-sensitive design solutions. As one of Canada's leading architecture firms, EVOQ strives to foster a positive learning environment and a collaborative workshop spirit to encourage employees to develop their skills and share their knowledge with their peers. Culture, history and technology underpin EVOQ's architectural approach. Diversity, respect and work-life balance round out the firm's culture and make EVOQ a rewarding place to work.

Summary

LOCATION: DOWNTOWN MONTREAL OFFICE

EVOQ is a recognized leader in heritage conservation and architecture in Inuit and First Nations communities. As part of our firm's ongoing development, we are seeking a Technician or Survey Technologist and Site Supervisor, Heritage Team with a keen interest in heritage conservation and building envelope, while being sensitive to heritage values. The ideal candidate is distinguished by their experience and sense of organization.

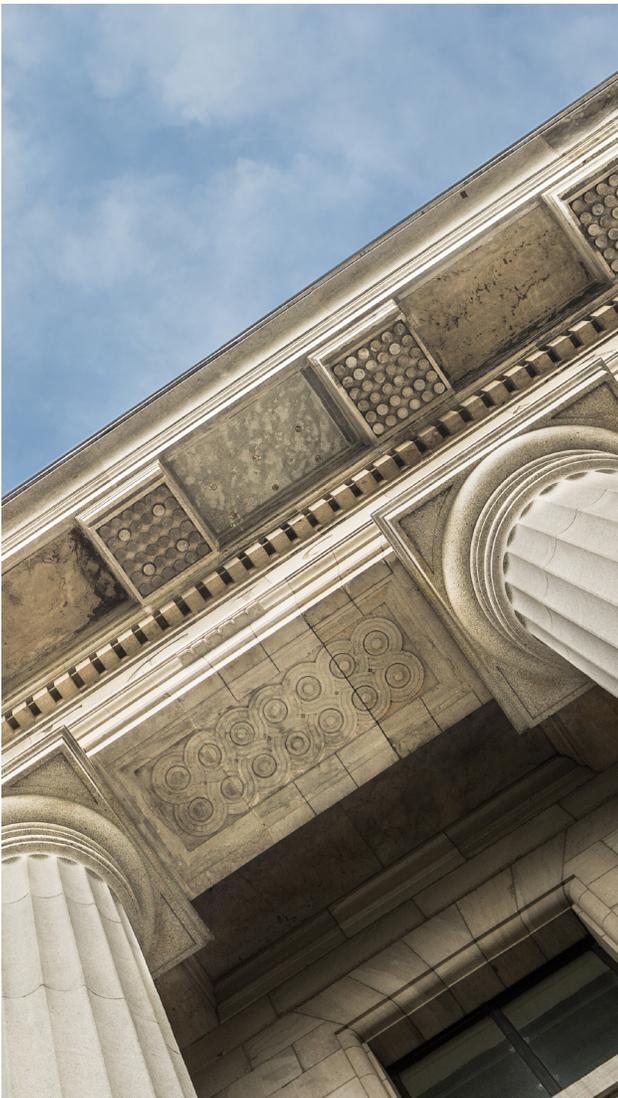

If you are interested in the world of conservation and the rehabilitation of historic buildings; if you are constantly seeking new challenges and want to be part of a fast-paced company, don't miss this opportunity and join our team!

West Block, Parliament of Canada, Complete Restoration, Rehabilitation and Addition, Ottawa, ON

Wellington Building, Restoration and Rehabilitation of Building Envelope, Copper Roof and Interiors, Ottawa, ON

Ernest-Cormier Building (Quebec Court of Appeal), Restoration and Rehabilitation of Exterior Masonry and Windows, Montreal, QC

McGill University Arts Building, Stabilization of Portico, Montreal, QC

Le 357c, Restoration, Rehabilitation and Expansion, Montreal, QC

Principal responsibilities

The selected candidate will assume, under the supervision of the project manager, the following responsibilities:

- Produce drawings, construction documents, technical documents, layouts, etc., using AutoCAD and/or Revit software;
- Participate in the preparation of plans and specifications according to established standards;
- Participate in technical design and production and solve technical problems;
- Participate in the progress of projects at all stages;
- Coordinate plans and specifications with other construction stakeholders;
- Estimate the costs of the construction budget;
- Carry out research on products and participate in the choice of materials and construction systems;
- Prepare contracts and bid documents;
- Participate in the management of construction documents and site administration;
- Perform all other related tasks.

Your profile

- Diploma (DEC) in architectural technology;
- 10 years' experience;
- Proficient in AutoCAD, Office Suite;
- Interest in the conservation of heritage buildings;
- Excellent fluency in French;
- Experience in rehabilitation and conservation projects (an asset);
- Proficient in the Adobe suite (an asset);
- Proficient in Revit (an asset);
- Fluency in English (an asset).

Working conditions and environment

- Flexible work schedule;
- Employee benefits package (group insurance plan);
- Competitive salary based on experience;
- Office in the heart of downtown Montreal (Place des spectacles);
- Stimulating and dynamic work environment;
- Year-round social, cultural and sporting activities;
- Envious employee training program focused on the development of the identified skills and competencies.

Submit your application (cover letter, CV and portfolio) via email to the Human Resources department at rh@evoqarchitecture.com.

All applications will be evaluated. Only selected candidates will be contacted.

We thank you for your interest in our firm. Do not hesitate to share this job offer with friends and colleagues interested in new career opportunities.
